PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience building and improving web applications and AI-powered systems across automotive, e-commerce, real estate, fintech, and edtech. Strong **database concepts**, **application architecture** understanding, and hands-on work in **performance tuning**, **bottleneck identification**, and **optimization** of production systems. Experienced with **Java/JVM**-based development, **Python**, **Node.js**, **SQL**, **RESTful APIs**, **LLM integration**, and cloud-oriented service design. Practices **SDLC** and **software quality assurance** through **unit testing**, code review, and **CI/CD pipelines**; strong analytical, debugging, and team collaboration skills.

TECHNICAL SKILLS

- **Languages:** Java (JVM), Python, JavaScript, TypeScript, C++, SQL
- **Database:** PostgreSQL, MySQL, Supabase, Firebase, Prisma; indexing, query optimization, Row Level Security (RLS), multi-tenant data modeling
- **Application Architecture:** RESTful APIs, GraphQL, event-driven systems, microservices, WebSockets, webhooks, AWS Lambda, API Gateway
- **AI & Voice:** Multi-LLM workflows (GPT, Claude, Gemini, Grok), agentic AI workflows, Twilio telephony, Deepgram speech-to-text, FFmpeg media pipelines
- **Performance & Optimization:** Application tuning, bottleneck analysis, query performance improvement, lazy loading, code-splitting, bundle optimization, production issue triage
- **Quality & SDLC:** Unit testing (Jest, React Testing Library), automated testing, code review, Agile, Scrum, Git, GitHub Actions, CI/CD pipelines, Docker
- **Frontend & Backend:** Next.js, React, Node.js, Hasura, Vercel, AWS Amplify

WORK EXPERIENCE

Software Engineer — Hashlogics

May 2026 – August 2026

- **AI Voice Agent Platform** (Node.js, TypeScript, REST APIs, Twilio, Deepgram): built AI-powered **inbound and outbound voice agents** for the automotive industry, integrating Twilio telephony with Deepgram real-time speech-to-text.
- Implemented **multi-LLM workflows** (GPT, Claude, Gemini, Grok) and **agentic AI workflows** for conversational AI, appointment booking, customer communication, and business process automation.
- Built an AI media processing pipeline where **FFmpeg** extracts audio from uploaded videos for LLM transcription and analysis into structured automotive service reports.
- Designed scalable **asynchronous workflows**, background jobs, and API integrations; collaborated with frontend and product teams to ship production-ready AI features.

Software Engineer — Devnuts

August 2025 – May 2026

- **Ostrom E-Commerce** (Next.js, TypeScript, Three.js): profiled frontend load behavior and reduced initial page load time by **35%** through lazy loading, code-splitting, and render tuning.
- **U.S. Real Estate Platform** (Next.js, Supabase, PostgreSQL, AWS Lambda): improved query performance by **25%** via indexing and Row Level Security (RLS) optimization for multi-tenant data, and built event-driven GoHighLevel CRM sync (Inngest cron jobs, retry logic) that cut sync failures by **40%**.
- Triaged and debugged production issues on **France mobile banking** and real estate applications; collaborated in **Agile** sprints with code review and **CI/CD** release workflows.

Junior Software Engineer — SudoStudy (Hong Kong)

June 2024 – August 2025

- **SudoStudy Platform** (Next.js, TypeScript, GraphQL, Hasura): developed an edtech web application with stable API integration and maintainable service-oriented design.
- Built **Python** PDF processing pipelines (PDF2Pic, PDFCrop) and real-time **WebSocket** services, improving reliability under load.
- Applied **unit testing**, code review, and **continuous integration** in a **Scrum** team; documented APIs and deployment processes and supported post-release debugging.

EDUCATION & CERTIFICATES

- **Bachelor of Science in Software Engineering (B.S. SE)** — FAST-NUCES Lahore
- **FSC Pre-Engineering** — Punjab Group of Colleges
- **Teaching Assistant** — Database Management Systems (DBMS), FAST-NUCES
- **Certificates:** MERN BootCamp (DevInc); Meta — Programming with JavaScript; Meta — Introduction to Web Development
